

Jerk it

Maybe you're a good writer. We sure as heck wish for your own sake you're a good masturbator. Maybe you're both. Either way, **we need YOU!**

Because it was such a raucous goodtime the first time around, the **undercurrents Festival** has invited **May Can Theatre** to curate a second series of anonymously crowd-sourced first-hand accounts of jerking, diddling, flicking, rubbing, grabbing, pulling, twisting, jacking, jilling, petting, slapping, smacking, whacking, tickling your privates in private (or in some cases, public). It will be a celebration of self-love in all its glory, complexity, hilarity, diversity, discovery and stickiness.

To that end, **we are looking for stories.**

Women, men, the experienced, and the soon to be more so, plus everyone else in between - we want to read any tale about rubbing one out you think is worth telling.

The first time you did it.

The time you were caught doing it.

The time you surprised yourself in doing it.

There are as many stories as there are people who self-love.

And really, we all do it...

Everyone and anyone are welcome to submit stories up until Feb 6.

To do so anonymously, use the following login credentials to email us.

STEP 1

Log in to the throwaway email account rubitmaycan@gmail.com (password: **everybody**)

STEP 2

Attach your story to an email and send it to maycantheatre@gmail.com

Stories should clock in anywhere between 3 - 7 minutes in length. And please make sure to title your masturbatory tale. Apart from that, it's late and you're alone with your notebook/computing device...frisky adventurous feelings... you get the gist: it's carte blanche!

Standout stories will be read aloud - in public - by guest readers during **undercurrents**, Feb 12 - 21 @ Arts Court (2 Daly Ave). For more information on the event and all the other amazing programming included in the festival visit: undercurrentsfestival.ca

We wait in anticipation of reading your solo-sexy-time stories. Thank you in advance for entrusting us with them!

Love,

May Can Theatre
